NOTICE

A notice of intent for the following project submitted in accordance with §R307-401-1, Utah Administrative Code (UAC), has been received for consideration by the Executive Secretary, Utah Air Quality Board:

Salt Lake City Dept. of Public Utilities
1367 W 2300 N
Salt Lake City, UT 84116

Project Description: The Company has submitted a Notice of Intent to obtain an approval to modify their current approval order to correct engine type information and emission factor for CO.

It has been determined that the conditions of the Utah Administrative Code R307-401-6 and the Federal rules have been met. The Executive Secretary intends to issue an Approval Order after a 30-day public comment period is held. This comment period is being held to receive and evaluate public input on the project proposed by Salt Lake City Water Reclamation Facility.

The Proposed Emissions increase will be:

CO 0.42 tons/year

Growth factors used in the State Implementation Plan(s) for Salt Lake County have taken emission increases for this type of proposal into account.

The completed engineering evaluation and air quality impact analysis showed that the proposed project meets the requirements of federal air quality regulations and the State air quality rules. The Executive Secretary intends to issue an Approval Order pending a 30-day public comment period. The project proposal, estimate of the effect on local air quality and draft Approval Order are available for public inspection and comment at the Utah Division of Air Quality, 150 North 1950 West, Salt Lake City, UT 84114-4820. Written Comments received by the Division at this same address on or before December 17, 2004, will be considered in making the final decision on the approval/disapproval of the proposed approval order. Email comments will also be accepted at milkar@utah.gov. If anyone so requests to the Executive Secretary at the Division in writing within 15 days of publication of this notice, a hearing will be held in accordance with R307-401-4, UAC.

Date of Notice: November 17, 2004
